

SEA CLOUD II

THE TRADITION
LIVES

IN THE BEGINNING THERE WAS A VISION

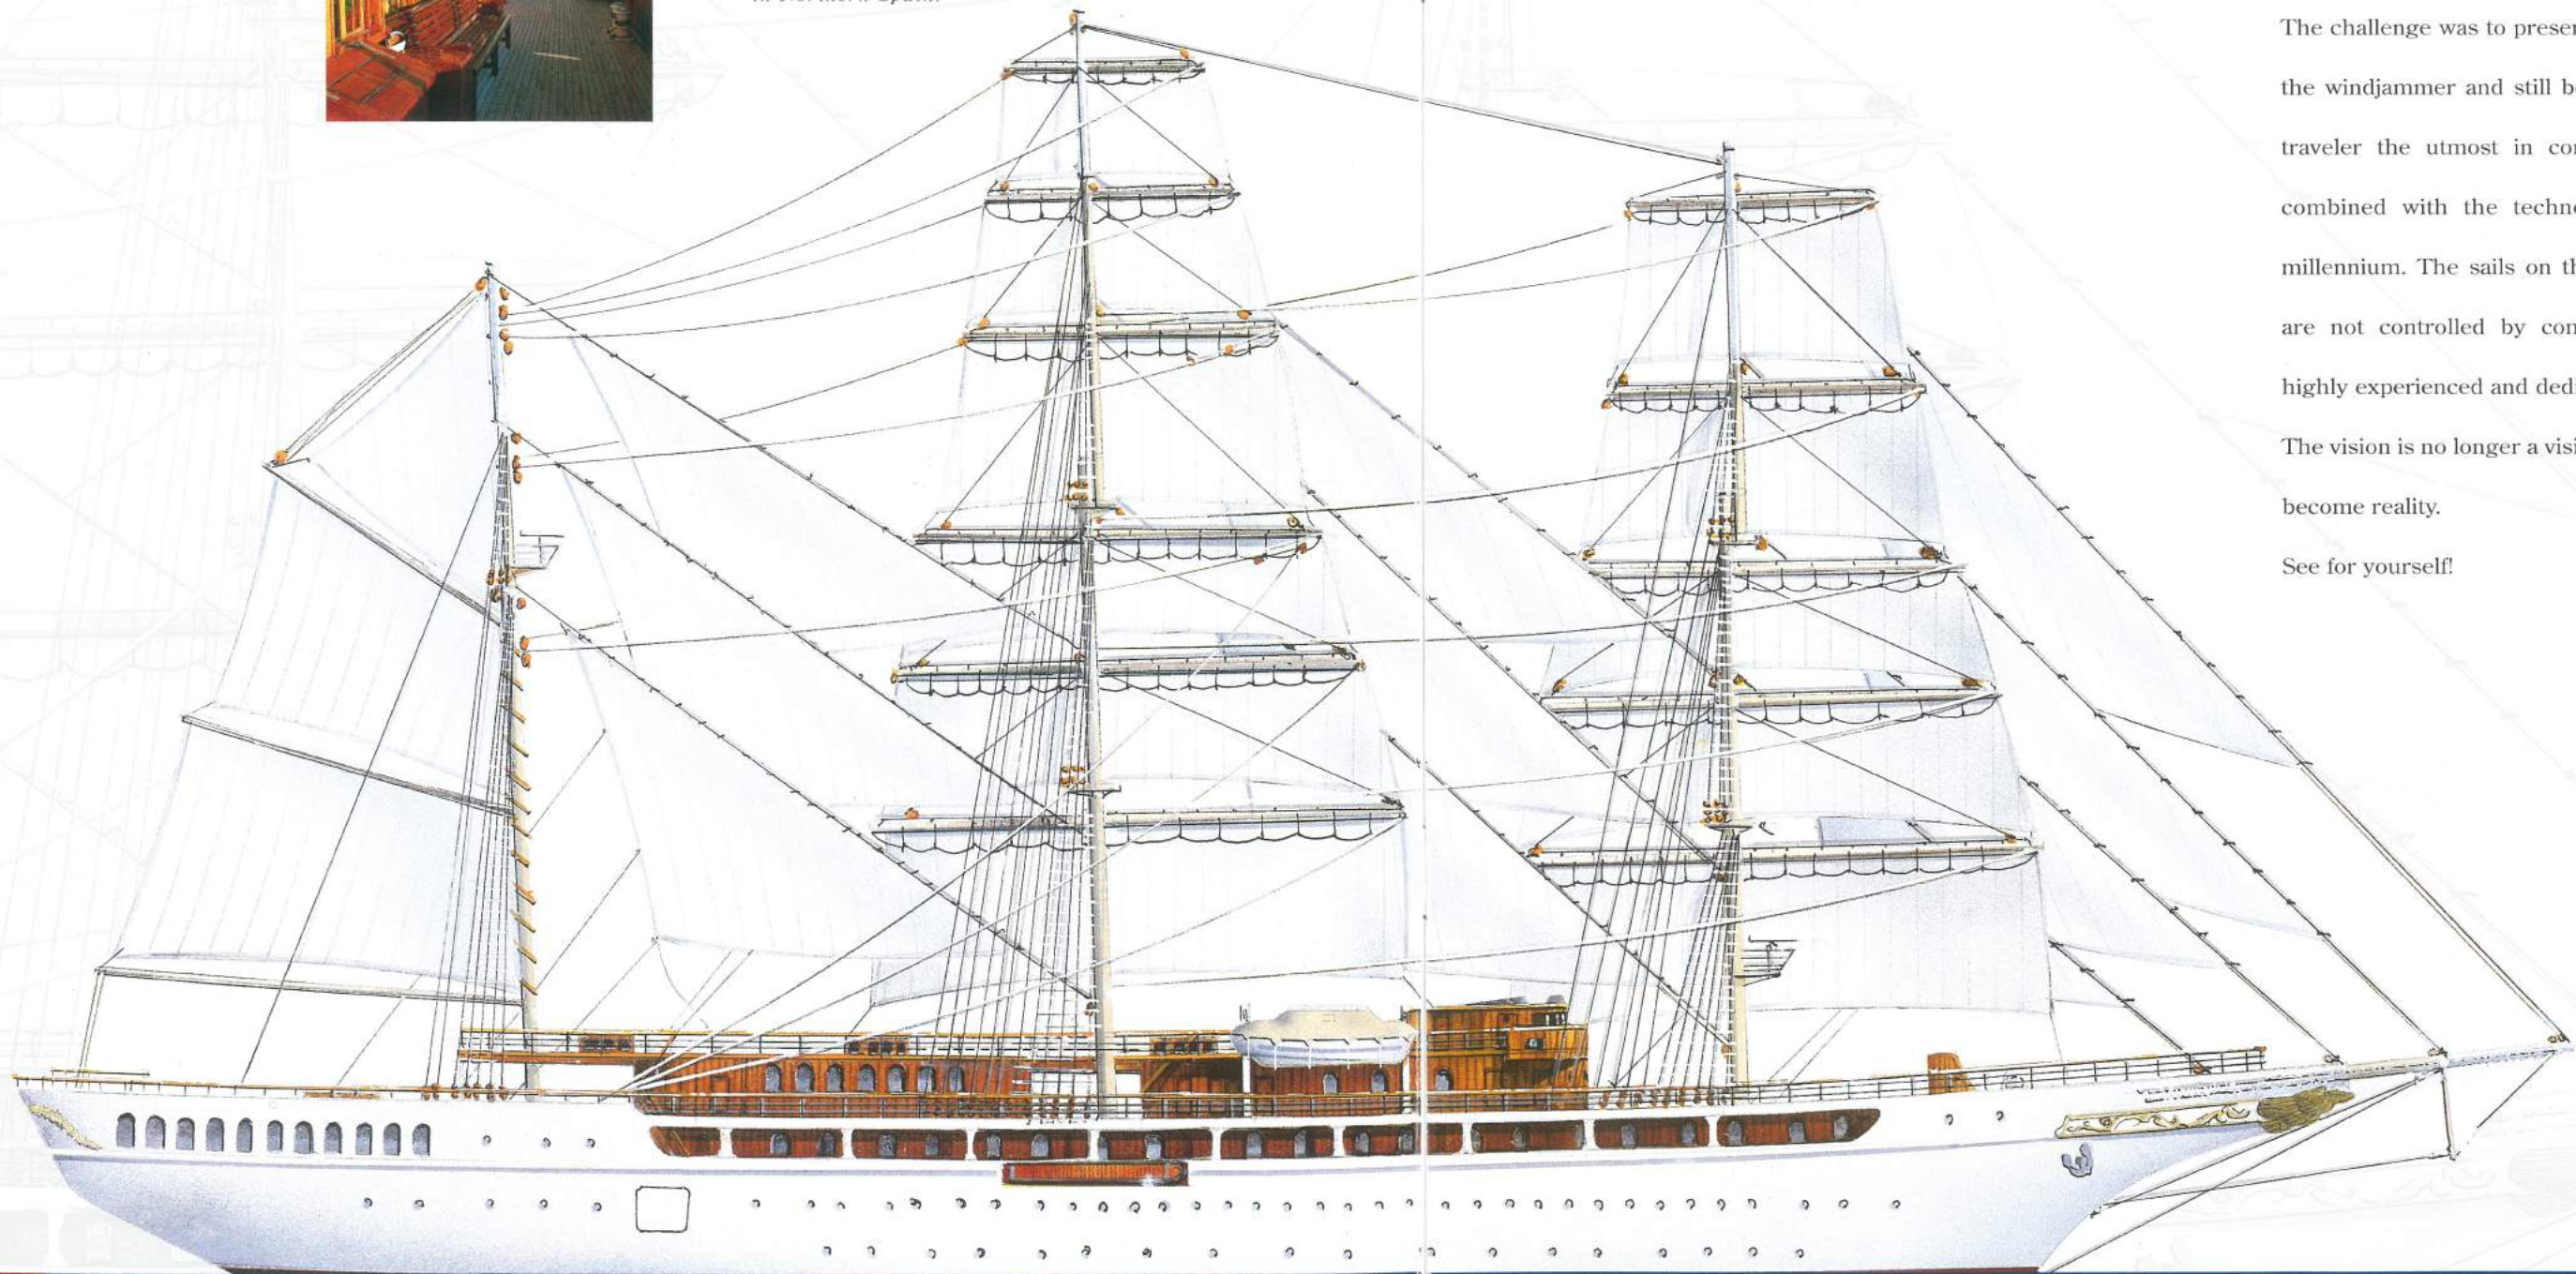

*SEA CLOUD II,
sister ship of the
legendary SEA CLOUD,
is presently under
construction
by shipbuilders
Astilleros Gondan
in Northern Spain.*

The SEA CLOUD CRUISES team had the idea to build a large sailing ship in the style of the SEA CLOUD, but with a few extras to emphasize the high degree of comfort and exclusivity. The challenge was to preserve the romance of the windjammer and still be able to offer the traveler the utmost in comfort and luxury, combined with the technology of the new millennium. The sails on the SEA CLOUD II are not controlled by computers, but by a highly experienced and dedicated crew.

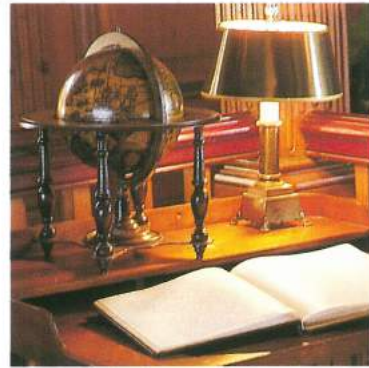

The vision is no longer a vision. The dream has become reality.

See for yourself!

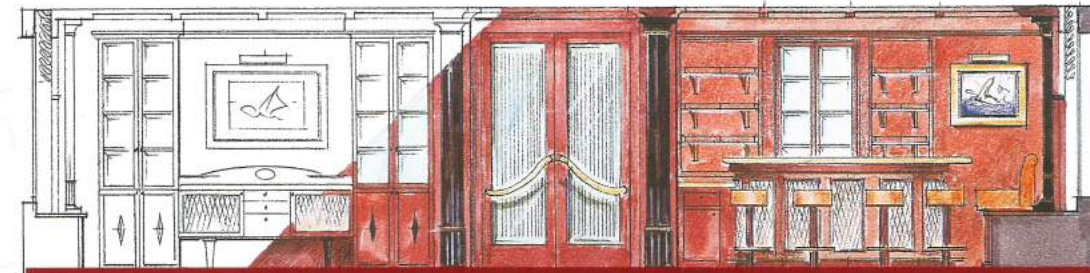

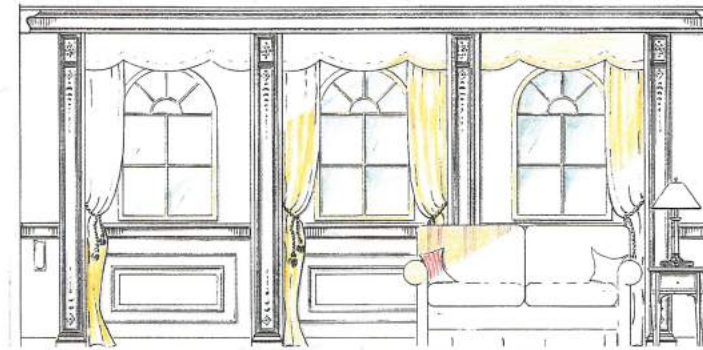

A PASSION FOR DETAIL

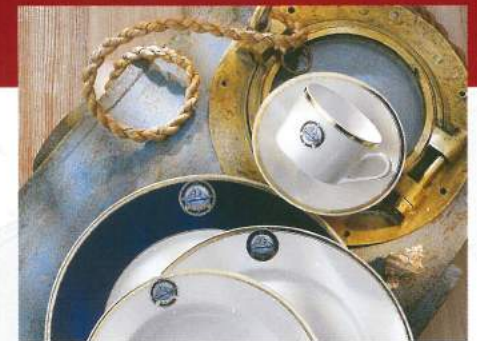

Some designers would hesitate before attempting to design a ship with the ambience of the 30s. Not so Hamburg's ship designers Kai Bunge and Siegfried Schindler, whose designs for the RIVER CLOUD and renovations of the SEA CLOUD were received with unbridled delight and approval. We knew we could not be in better hands than theirs, as simply nothing is left to chance. The finest, carefully chosen fabrics are combined with leather, rattan and other materials, brass and gold, precious woods and marble, to create an impressive ensemble.

The romance of the windjammer is evident in numerous, lovingly selected details on the SEA CLOUD II.

Highly decorative furniture emphasizes the exclusivity and luxury on board.

Already a highly sought-after collector's item: the porcelain used at the Captain's Table on the SEA CLOUD.

AT HOME ON HOLIDAY

Take some time out to read and relax in the comfortable library.

Spacious and elegant: the lounge on the Lido Deck.

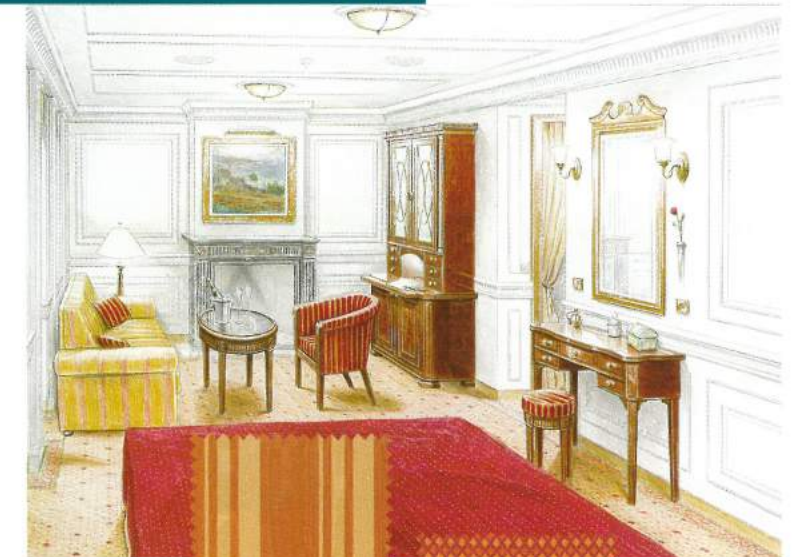

Wherever you are on the SEA CLOUD II, you will marvel that no expense has been spared: the harmony of shapes, colors and materials come together in the beautifully fitted cabins and suites, tastefully complemented by expensive furniture and accessories. The bathrooms, in light marble, are unusually spacious and extremely comfortable. The views from the lounge on the Lido Deck are simply breathtaking, and there is a cozy library where you can withdraw to read or reflect in peace and quiet. The more active traveler will enjoy the generously proportioned sauna, fitness area and platform for water sports.

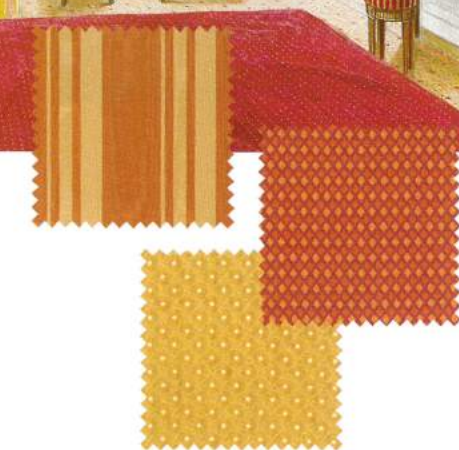

The details add to the charm of the SEA CLOUD II

It is hardly necessary to tell you that you will find a welcoming bottle of champagne in your cabin.

The bright, lovely bathrooms make getting up a pleasure.

LET'S TALK ABOUT EXPECTATIONS

It goes without saying that you would expect 5-star service on a 5-star ship.

But you can expect even more on the SEA CLOUD II: not only will you enjoy the perfect service provided by a dedicated crew, but you will be surrounded by their genuine warmth, simple friendliness and attentiveness – just like the sailing ships and luxury cruisers of yesteryear.

Not always a matter of course on a sailing ship: inviting fitness center on the Cabin Deck.

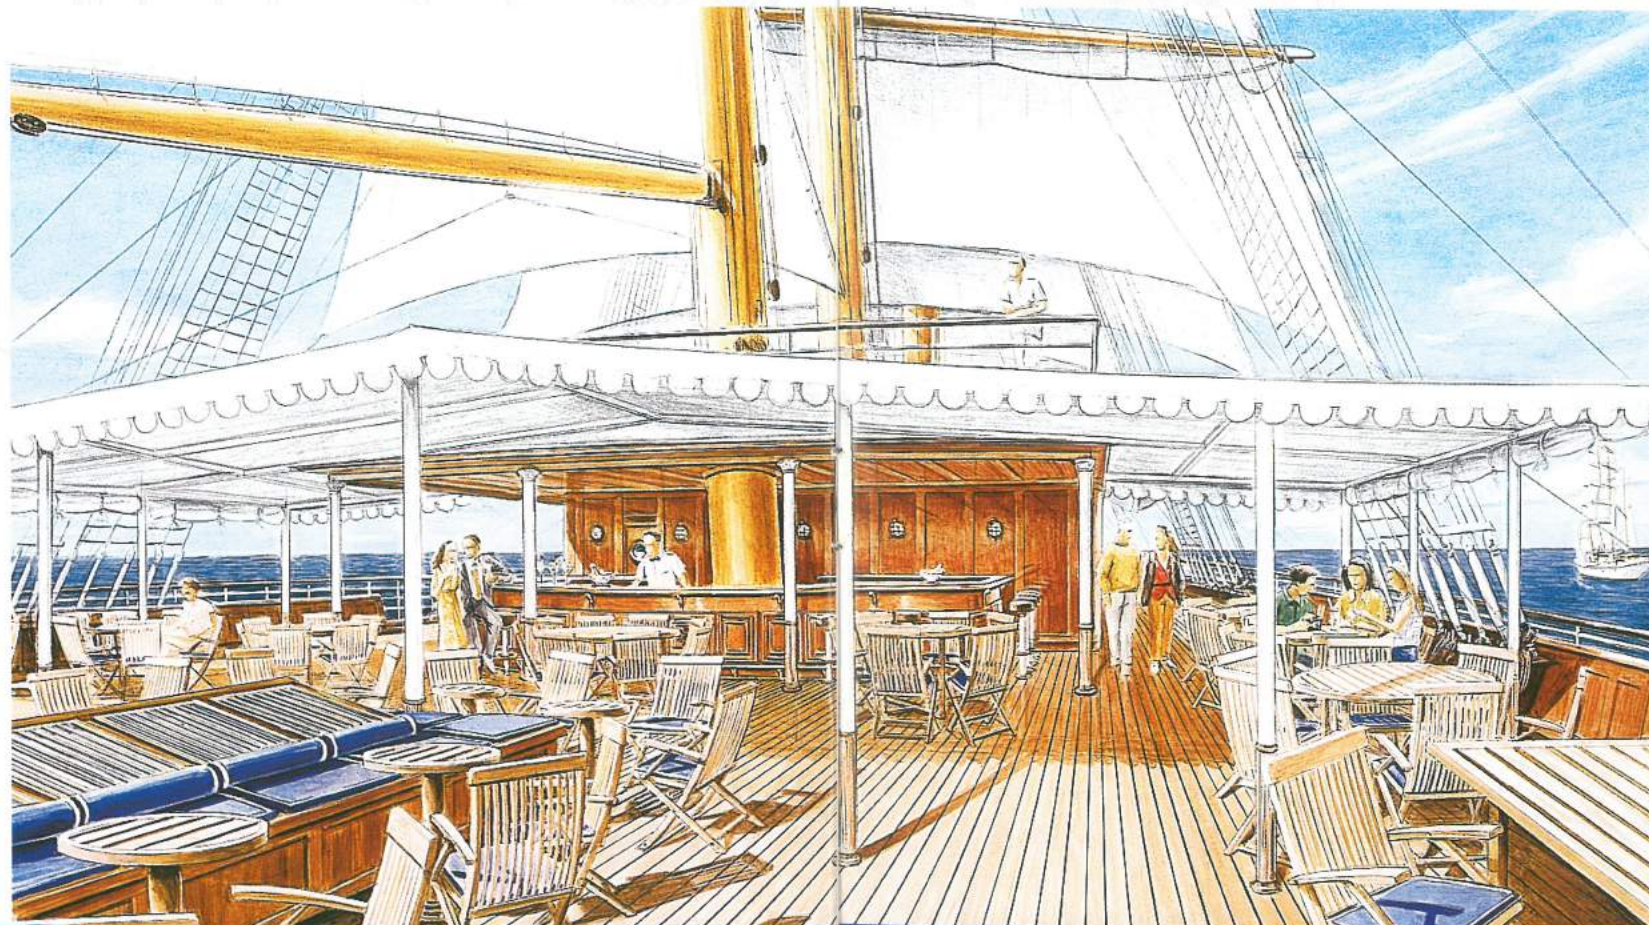

The atmosphere in the restaurant on SEA CLOUD II is bright, modern and nautical. Please be seated.

Please feel free to award your own stars to our restaurant. Our chef will amaze and delight you with exquisite menus made from market-fresh local specialties, prepared and served in a delightfully friendly atmosphere. Night after night, dinner is both the highlight of and a festive end to exciting, enjoyable and eventful days.

Enjoy cocktails on the Lido Deck: many travelers think this is the most pleasant place on board.

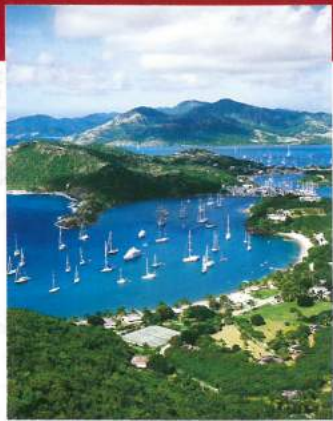

JUST ONE QUESTION

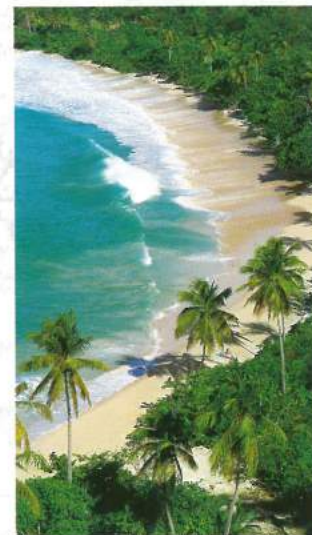

And that is: where exactly are the most beautiful waters in the world? Well, wherever they are, SEA CLOUD II can take you there – whether it's to the sunny islands of the Caribbean; the Gulf of Mexico; the Aegean; the Western Mediterranean; the Canary Isles, or the historical ports of the Baltic Sea.

Admiring glances follow wherever her 32.280 sq. feet sails take her, as she rekindles memories of a bygone age. The dream became a vision; the vision became reality.

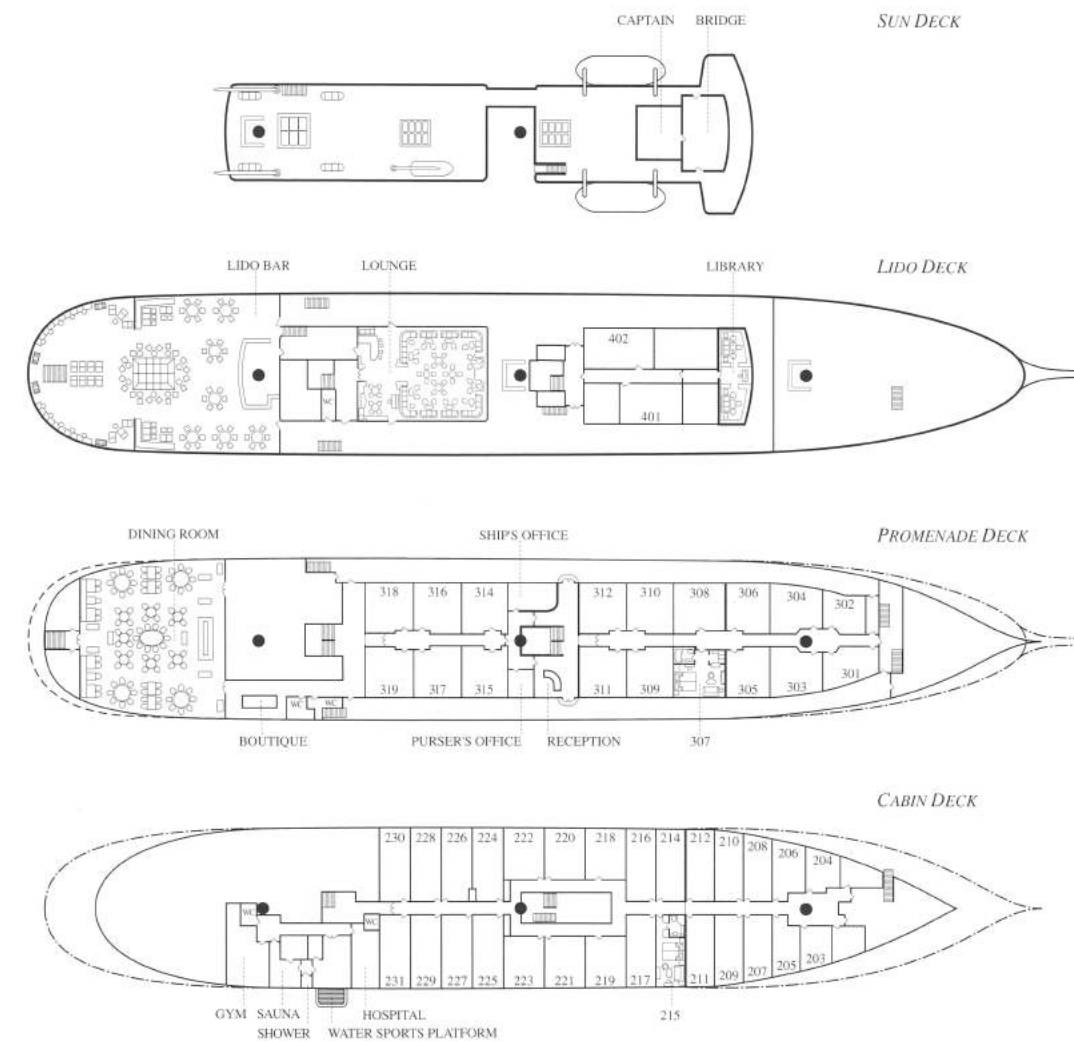

You can experience it.

Where the water could not be clearer, the beaches could not be cleaner, the horizons could not be farther - that is where the SEA CLOUD II is at home.

DECK PLAN

Technical details and data:

Length overall: 384 feet · Width overall: 53 feet · Draught: 18 feet
